

COMPOSITE BOXES AND ENCLOSURES

When you need durability, ease of installation and customization options, United Fiberglass Composite Enclosures are your answer. Our impact resistant, maintenance free fiberglass enclosures are designed to protect in the harshest conditions, such as salt water environments, wastewater and water treatment plants, irrigation systems and chemical and refinery plants. Compared to steel enclosures, fiberglass offers the following advantages:

- ✓ Lightweight and easy to handle
- ✓ Non-conductive
- ✓ Easily modified
- ✓ Cost savings versus steel enclosures
- ✓ UV resistant
- ✓ Flame retardant
